

# Grace Charity Foundation Limited : Financial Review

Financial arrangements match our belief

## Our Belief

- Without considering any political and religious stands, we wholeheartedly strive to work for the enhancement of educational facilities and student subsidies in the remote hilly regions of China
- Promote altruistic contributions and help people to improve their living conditions themselves ; enrich the lives and experiences of all the sponsors and beneficiaries through charitable projects

## Financial arrangements match our belief

- All donations will be used specifically on the designated projects, we do not levy any administration fee on donations
- Office administration expense accounts for about 0.5% of our donation; interest income well covers administration expenses
- No salaried staff and all workers are volunteers
- Volunteers paid for their own travel and hotel expenses on errands
- We need not pay rent for our premise.
